### Impact Locally on Mental Health

Mental health is essential to everyone’s overall health and well-being.

Estimates suggest that only half of people with mental illnesses receive treatment. Psychiatric medications are an important part of treatment for many people who live with a mental illness, but the price can often be an obstacle.

- **$ Saved:** $92,291
- **People Helped:** 690
- **Average Savings:** 47%

Cumulative data through March 31, 2018

### How Common is Mental Illness?

**Prevalence of Any Mental Illness (AMI) Among U.S. Adults**

In 2016, there were an estimated 44.7 million adults aged 18 or older in the United States with AMI.

- **Women:** 21.7%
- **Men:** 14.5%
- **18-25:** 22.1%
- **26-49:** 21.1%
- **50+:** 14.5%

AMI was higher among women than men.

Young adults aged 18-25 years had the highest prevalence of AMI compared to adults aged 26-49 years and aged 50 and older.
